All students from our class go to an exhibition displaying China's outstanding achievements in last month. Influencing deeply by my parents, I was eager waiting for the opportunity. As soon as we arrived, a guide gave us unusual introduction to the exhibition and we made some notes carefully. When the visit started, we were both inspired by various exhibits, including models of newly-invented spaceships. Beside, we took a lot of photo and were proud of the achievements of our country.

The next day, they decided to have a class meeting to present which we had seen. Immediately we devoted ourselves to preparing the presentations.

Last month, I took part in a volunteer activity in a village. We start off by bus at 9 o'clock. After a three-hour drive, we saw the village surrounded by hills. It was very difficulty to drive on the rocky road, so we got on the bus and walked there. The villagers standing by road welcomed us warmer. Cooked with those vegetable grown by the villagers, the lunch was tasted delicious. After lunch, we played games with the village children. Then, we visited an old man live alone

on the hillside. We sang a few songs, what made him really happy.

I think when doing volunteer work, you help others and you gain happy in return.

After a heated discussion, our class decided to recommend Li Hua as the Touching Figure On Campus.

We have every reason to believe he is qualifying for the honor. First, Li Hua is always willing to offer us help whenever are necessary. Besides, his great devotion for work as monitor make our class an excellent and united group. However, that has impressed us most is his unconditional love for poor

child. Last summer vacation, he volunteers to teach English in small village, which has helped open up a new world to those children.

All in all, her selfless love touches us all deeply. Therefore, we strong support Li Hua as the Touching Figure On Campus.

I used to delay things until deadlines, that caused me much trouble. Therefore, I thought of some ways to get rid the bad habit. First, I took a shower right after I got home from school. It refreshed me but made my thoughts more active. Furthermore, in order to avoid being continual disturbed by my cellphone, I left them with my parents. The final strategy I use was scheduling. I managed to planning my days ahead of time so that I could break up my tasks rather than having too many work to do on the last day. By using these simple technique, I've improved my efficiency and made a good use of my time.

Nowadays, the most school students are growing up healthy and strong, but unfortunately, some had got into the habit of smoking. To these students, I'd like to say that to broken the bad habit, above all, you should believe in you and have a strong will. Break a bad habit and build a good habit, you will enjoy a wonderful live! If you are one of their classmate, you should constantly warn them of the danger of smoking and try to help them to give up the habit that does great harm on their health. At the beginning of this term, we moved to the new school yard, where lies in the far north of the city.

We were all on high spirits. It is much bigger than the old one. The classrooms are bright and clean. We have a lot of modern lab equipment, making it convenient for students to do experiments. Now we can have various after-school activities on the new playground. Our teachers often play basketball and soccer together with us. As spring approached, the flowers newly planted in the yard are so beautiful. With so many green trees and fragrant flowers around, we feel it less hard to deal with the pressure of school work in the senior year.

Dear Tom,

How are you doing? I wonder that you could sell some Chinese knots for me. I made them myself with red silk threads, cloth and other materials. They look really beautiful in the shape of a diamond, about 5 inches long and 4 inches wide. In China, these knots stand for friendship, love and good luck. People can either give them as gifts to friends or hang them in their houses. They are only 12.99 US dollars each. If anyone wants to know more about the knots, let me write to me. Besides, do let me know if you need further information. Thank you!

Yours,

Li Hua

In my life I have met many people who are really worth recalling. But perhaps the most unforgettable

person is my Chinese teacher. He gave us the best gift the teacher can offer: a passion for learning. He not only taught me to appreciate the beauty of Chinese literature, but also aroused our interest in exploring something deeper. Besides, I was attracted by his lively teaching style. We were always longing for his class with great eagerness because his lectures were humorously delivered. Finally, I was deeply impressed by the respect he showed for us, for he treated us like friends rather than students. Since it is nearly ten years since I attended his last class, I know part of him has already stayed in my heart.

Dear Editor,

I am Li Hua, a senior student. I'm writing to discuss about the traffic problems near our school gate.

With so many parents picking up their children, traffic jams are frequent near the school gate, causing much inconvenience to our students as well as our teachers. Worried about the existing traffic problems, I strongly recommend that some urgent measures be taken. First, we should encourage students to ride bicycles or walk to school, which will not only help reduce jams but also benefit their health. It's also a good idea to allow junior students to leave school 10 minutes earlier than other students. However, parking is not allowed near the school gate.

I do hope all my suggestions can be considered and that the problems can be solved soon.

Yours,

Li Hua

Dear Andy,

I just wanted to write you a note of encouragement because I know you feel completely frustrate at not getting an award tonight.

Most of the time, you don't necessary succeed in anything without difficulty for the first time you try it. For example, you may have to do a math problem a few times after you get it right, made you afraid of failure. Instead of letting failure define you, let it teach you. As the matter of fact, it is happiness matters most, whatever happens in your life. Do remember no one can ever take away his choice to be happy. Close your eye. Put your hand on your heart. Breathe deeply until you feel your beautiful spirits floating up. Love you so much.

My mom and dad are great cooks, but I always enjoy staying at home and having delicious food. I remember when I was about six, all the kids in my neighborhood want hamburgers and chips, but some didn't have money to buy it. So my father tried to make some on the weekend and asked them eat at my home for the free. The kids were very happier. It helped me make lots of friend. Now I often cooking for my parents, and they like my dishes, either. It's really relaxing to sit around a table for my parents, eating and talking together.

My mother was good at making dumplings. Every time I see him making dumplings in a quick way, I think it is such easy thing for me. Last week, I learned what to make dumplings from my mother. Before started the main steps, I spent a long time making the filling. My mother told me that it was a very importance step. In the step of wrapping dumplings, my mother finished one within several second. However, it was difficult for me to fold up it over the filling. I ever expected that making a dumpling would be so hardly. Even so, it was a valuable experience for me.
